Hi Team,

Thank you all for agreeing to be a co-author on Here the latest version of the formaldehyde GeneTox manuscript. Please find the revised outline along with the co-author's role for a particular section. Those with a bold name are responsible for the particular section. Andrew Kraft and I worked on developing the overall summary table (Table 19) and he will be also critically reviewing the discussion.

Here are the responsibilities of the co-authors:

Make sure to

- (i) add few introduction lines if necessary,
- (ii) edit/revise the text to flow better;
- (iii) add a small summary of your section at the end
- (iv) make sure the table number in the text correspond to the actual table
- (v) check the tables for any inconsistencies and fix them; cross check the references in the text; check if you can trim the text to make it more consistent.
- (vi) provide abbreviations used in the table and add any footnotes that are required at the bottom of the table.

The assigned section is your responsibility. Please provide the finished product of your section. I am not looking for comments.

All the co-authors should review and revise the Discussion, Summary and Conclusions part.

I appreciate if you can return the revised manuscripts in two weeks, which is by COB 30th May, 2016.

The files included are

- 1. GeneTox manuscript
- 2. Tables 1-18
- 3. Table 19.
- 4. Revised Outline of the manuscript.

Let me know if you have any questions.

Cheers

Sury
